Education

- **PhD | Tsinghua University** *Sept. 2025 - Present*
  Computer Science
  - **Research Area:** Visual Speech Recognition, Speech Processing
- **Master | Tsinghua University** *Sept. 2023 - June 2025*
  Computer Science
  - **Research:** Speech Recognition for Oromo language, produced open source ASR dataset. Paper accepted to ICASSP 2025
- **Bachelor | University of Electronic Science and Technology of China** *Sept. 2019 - June 2023*
  Software Engineering
  - **Selected Course:** C/C++/Python Programming, Data Structures and Algorithm, Data Mining, System Design

Research Interests

Speech Processing, Visual Speech Recognition (VSR).
Currently working on Lip reading verification. Given lip movement video and text, verifying whether they match of not.

Experience

- **Intern AI Engineer | Zhipu AI** *June 2026 - August 2026*
  - **Worked On:** AutoClaw and Zwork, AI Agent harness that can complete long horizon tasks helping people complete works.
- **Research Assistant | Tsinghua University** *Sept 2025 - Present*
  Center for Speech and Language Technologies Supervisor: Prof. Zheng Fang
  - **Focus:** Visual Speech Recognition, learning the relationship between lip movement and transcript.
  - **Masters Work (December 2023-June 2025):** Speech Recognition for low resource language. Created Speech Recognition dataset and open sourced it.
- **Intern-AI Engineer** *October 2022 - March 2023*
  Hongchengyun Technology Co., Ltd (HCYTech)
  - **Smoke Detection** Trained cigarette smoking detection model using YOLO and built smoking detection API
  - **Speech Recognition** Built an API for speech recognition using Whisper Open Source model.

Selected Projects

- **Mobile Application Dev and ASR data collection** *Feb. 2024 - Jun. 2025*
  - Developed Mobile application using Flutter Framework.
  - Collected ASR dataset and made it available for research community. First of it's kind open source data for Oromo language. [Pub. 1].
- **Leveraging LLM for Grammatical Error Correction** *Fall 2023*
  - Fine-tuned language model, specifically T5-base for Grammatical error correction using publicly available data
  - Developed web app demo similar to Grammarly where user can edit text and get grammar corrections .
- **CodeDig - Semantic Code search Engine** *Spring 2024*
  - Indexing code base and enabling semantic search through code base, powered by LLM.

Achievements and Certificates

- **2022 Excellent International Student of UESTC** 2022
- **1st prize for Academic Achievement in 2021-2022** UESTC
- **1st prize for Academic Achievement in 2020-2021** UESTC
- **1st prize for Academic Achievement in 2019-2020** UESTC
- **Tsinghua University Innovation and Enterpreneurship Program** Tsinghua University, 2023
- **Deep Learning Specialization - Online Coursera Course**
- **Flutter and Dart - The complete Guide - Online Udemy course**
- **Flutter and Dart - The complete Guide - Online Udemy course**

Extra Curricular

THUASA (African Student Association) Academic Affairs Director, 2024
Volunteered to welcome new students for spring semester, Spring 2024
Tsinghua University Global village 2024
3rd Prize for Extra-curricular activities in the Academic year 202-2021, UESTC
3rd Prize for Extra-curricular activities in the Academic year 2019-2020, UESTC
